# timeless MEMORIES

## **Has it been too long since you spent some quality time with your child?**

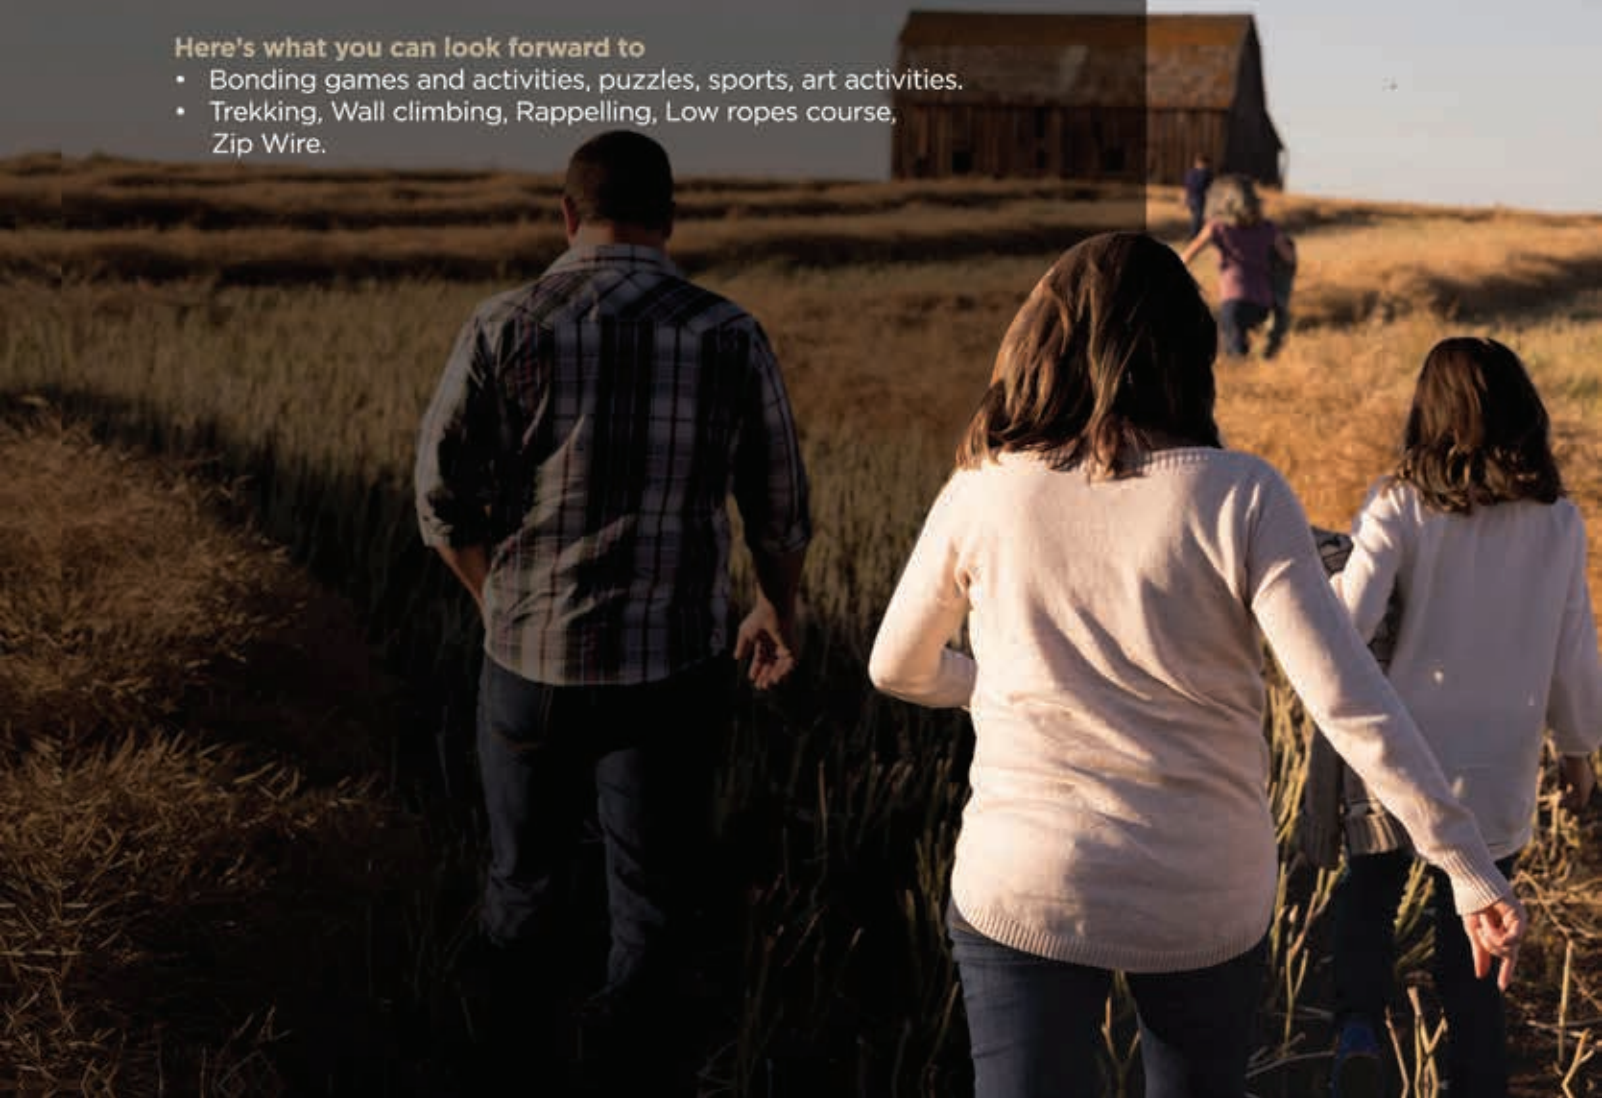

We have a plan to make sure you create some of the best memories, bonding with your child. Away from the trappings of the urban world, we have created a space just for you and your child to come together, enjoy and have conversations that last the night.

There are long and beautiful nature trails to follow and re-discover each other. There are sunrises that are waiting to take your breath away. And there are those million-dollar hugs that celebrate sunsets as the beginning of a new day.

There are a lot of activities to take up, together. Our trainers will ensure participants are in a protected space, and are healthy and upbeat to make the most of the experience. They are trained to create a positive and learning environment where they don't impede the participants' experience by limiting their curiosity but are always around them with an intention to keep them safe while they are on an excursion to discover themselves and the world around them.

### **Here's what you can look forward to**

- Bonding games and activities, puzzles, sports, art activities.
- Trekking, Wall climbing, Rappelling, Low ropes course, Zip Wire.
